TOTAL COST		\$

During the term of this agreement, we will provide the equipment owner with a maintenance program for the equipment listed. This includes one inspection per year for heating-only units, or two inspections per year for combination heating and air conditioning units.

What does each inspection cover?

- Clean furnace
- Inspect heat exchanger and burners
- Check operating pressures and air flow
- Test safety controls
- Inspect furnace flue
- Inspect ignition and starting operations
- Check all electrical connections
- Clean air conditioner
- Check condensate drains
- Check blower components
- Test amperage and voltage of motors
- Check freon level
- Oil motors
- **High efficient pleated filter included**

Why do you need a preventive maintenance program?

Air King's Peace of Mind Protection Plan will not only provide you with greater safety and security, but it will also prolong the life of your equipment and protect you against inflation. In addition, you will receive a **10%** discount on parts, preferred customer scheduling, and a detailed report on your inspection. Finally, in the event that you move, this agreement is transferable.
